The 'strike' is of general interest, as it proves that payable gold reefs exist under the whole of the townships of Boksburg and Vogelfontein which immediately adjoin the Northern boundary of the Cinderella Deep property. The mining rights under these townships belong to the Government, and are included among the special assets which it is intended eventually to realiso towards redeeming the Transvani's contribution to the War Debt. The townships are equal in area to 160 mining claims, and, assuming they are only half the value of the claims belonging to the adjacent outcrop mines, this asset alone would provide over a million and a half towards the reduction of the Transvaal's 30 millions War Loan. The strike is also important as affording further proof of the continuation of payable reefs into the deeper levels. The feature in this case is the great width of the reef. This taken in conjunction with the results from the Turf Club bore-hole, gees to demonstrate that the intervening area of I4 miles of deeper levels is auriferous.

#### The Private Meeting.

The report of the private meeting about the proposed removal of the Naval Dockyard to another site which appeared in last night's issue gives a misleading idea of what was said. It must be remembered, of course, that Mr Pollock was not Honorary Secretary when the speeches were made, and his minutes were written up from memory afterwards. The following is a remarks :-

Sir P. Chater-Mr Shewan and gentlemen,-As it is your wish that I should preside over the proceedings for which we are met, I shall be glad to do so, and to promote, as far as lies in my power, the object which one and all of us have in view. Doubtlers some of you are aware that two years ago I made an attempt to secure for the Colony a continuous Praya; but, unfortunately, without success. It would seem, however, if rumour be correct, that an opportunity for endeavouring to attain that object appears likely to offer. I shall, therefore, be glad to hear the views of any one present, in reference to this matter. I the gale. She was continually washed with huge seas. I am sure it is the ardent desire of the whole community to see their city possess one unbroken sea frontage (ap-

Mr Shewan then addressed the meeting, which, he said, had been called to consider the advisability of making an effort to have the new Admiralty Dock removed from the Praya and Queen's Road, where, he thought every one agreed, it was entirely out of place. Sir Paul Chater was with them, and had, he believed, a complete scheme ready to meet all the objections that might be raised by supporters of the present site, and he know that their friend, Mr William Danby, had all the details of this matter at his fingers' ends. This agitation might be a forlorn hope, though he did not think so; but anyhow let them go forward bravely with it, and if it be a forlorn hope, may it end as many forlorn hopes in our country's history had ended by carrying everything before it with Glusgow during the storm.
